About Ardelyx, Inc.

Ardelyx is focused on enhancing the way people with cardiorenal diseases are treated by developing differentiated, minimally systemic medicines. Ardelyx's cardiorenal pipeline includes the Phase 3 development of tenapanor for the treatment of hyperphosphatemia in people with end-stage renal disease who are on dialysis and RDX013, a potassium secretagogue program for the potential treatment of hyperkalemia. In addition to its cardiorenal pipeline, Ardelyx has completed Phase 3 development of tenapanor for the treatment of people with irritable bowel syndrome with constipation and anticipates submitting a New Drug Application to the U.S. Food and Drug Administration for this indication in the second half of 2018. To efficiently bring its treatments to market, Ardelyx is pursuing strategic collaborations in the U.S. and beyond, with established agreements with Fosun Pharma in China and Kyowa Hakko Kirin in Japan.
