

Ardelyx Reports Fourth Quarter 2018 Financial Results and Recent Highlights

March 6, 2019

Company is poised for two Phase 3 readouts in 2H 2019 for tenapanor in hyperphosphatemia

Der the last year, we made significant progress towards developing our lead product candidate, terapanor, and executing on our plan to provide patients with this first-ever, non-binder treatment of hyperphosphatemia for patients on dialysis," said Mike Raab, president and chief executive officer of Ardelyx. "We enter 2019 well-positioned with two years of cash on and to deliver on our strategic goals to report results from two Phase 3 clinical trials during the second half of the year and to prepare for commercialization of our novel therapy."

Key Accomplishments in 2018

- Initiated the PHREEDOM clinical trial, the company's second Phase 3 clinical trial of tenapanor for hyperphosphatemia in patients with end-stage renal disease who are on dialysis. Topline results from this trial are expected in the fourth quarter of 2019.

 Initiated the Phase 3 AMPLIPY clinical trial, designed to evaluate expanded use of tenapanor as an adjunctive therapy to phosphate binders. Results from the AMPLIPY clinical trial are currently expected in the second half of 2019.

 Reported the unique mechanism of action for tenapanor to nihibit paraceulity phosphate absorption in Solicine and Translations Medium Translations Medium Translations Medium Properties absorption in Solicine and Translations Medium Translations Medium Properties absorption in Solicine and Translations Medium Properties and Translations Medium Properties Propertie

Full Year 2018 Financial Results

- Cash Position: As of December 31, 2018, Adelyx had total capital resources including cash, cash equivalents and short-term investments of \$168.1 million compared to total capital resources including cash, cash equivalents and short-term investments of \$17.2017.
